Vineyard

The 2022 Black Estate Home Cabernet Franc was grown on at Home Vineyard located 6 kilometres north east of the Waipara Junction, in the Omihi sub-district of Waipara Valley, North Canterbury. This is a north facing sedimentary clay fan on a gentle hill side slope. The soils are mainly Awapuni clay with calcium carbonate deposits. The Cabernet Franc vineyard that sits in the belly of the slope above the original vineyard is 0.3 hectares. Cabernet Franc clones 214, 327, and 678 grow on 101-14 root stock and were planted at 6133 vines per hectare in 2011 by the Naish Family.

Season

Winter and early spring rainfalls meant vines started the growing season in spring with adequate soil moisture. Some cool night time temperatures in September kept us on frost alert but we were able to avoid any frost damage. Timing of bud burst and flowering ran seven to ten days later than previous seasons but in line the the long term average. Buds appeared around the Spring equinox. Shoot growth was even across the block and kept the field team busy with hand weeding, shoot thinning, and then wire lifting. Post flowering we experienced higher humidity levels than normal which averaged 82% through the normally dry December, January, and February months. Thorough leaf removal around the fruit zone was undertaken through the block and spray intervals were tightened up to manage the potentially high

disease pressure from powdery mildew. Harvest commenced in mid March where our field team carefully hand harvest and sort each bunch of fruit to ensure the best possible flavours of the season could be captured. We are relieved and happy to savour every wine from this unique and challenging season.
